Visitor Screen

DS7310/DS7315/DS7510

Yeastar DS7310/DS7315/DS7510 are **digital signages** that can work with Yeastar Visitor Management System to allow visitors to register and check in at the lobby.

Available to be installed with tabletop stands or wall-mounted, Yeastar visitor screens come complete with a 10.1" or 15.6" touchscreen, built-in QR code scanner, camera, and Yeastar Visitor Check-in App to expedite the sign-in process, screen visitors, and protect your workplace.

Visitors can scan the QR code on the touchscreen to complete the check-in flow from their personal device, or enter the visitor digit code (for preregistered guests) to complete the sign-in in seconds. The visitor screens connected to Yeastar Visitor Management System and automate daily tasks such as host notification, visit approval requests, badge printing, visit logs, etc., giving you and your employees a full line of sight to every single visitor entering your facility.

- **Modern Sleek Design**
  10.1" or 15.6" touchscreen with sided LED bar; installed with table stands or wall/glass mounted.

- **Custom Branding**
  Show your logo, customize the welcome message, and set up the background color/image to project your brand's image.

- **Touchless Visitor Registration**
  Collect information about who's visiting and why. Walkup visitors can scan the QR code to complete the visitor questionnaire and check-in flow from their own mobile devices.

- **Guest QR Code / Digit Code Check-in**
  Preregistered guests sign-in in seconds by entering their 6-digit visitor verification codes on the touchscreen or simply showing their check-in QR code for the screen device to scan.

- **Sync with Yeastar Visitor Management System**
  All visitor data is in sync to automate daily tasks like printing visitor badges, alerting employees about their guests, maintaining traceable visit logs, etc.

- **Energy Saving Settings**
  Adjust screen brightness or automatically turn off the screen outside business hours.
